

Marist College Eastwood Old Boys Association

Together, we ensure no Marist student is disadvantaged

Dear Fellow Eastwood Old Boy,

A warm welcome to all who have recently joined the Marist College Eastwood Old Boys Association. I draw your attention to our updated website which I hope you will find engaging. It now includes an extensive archive, tracking activities at the school over the past 90 years.

Our Association exists not only to foster connection and camaraderie among alumni, but importantly, our primary purpose being the support of current students at Marist College Eastwood—particularly those facing adversity or disadvantage. Through our efforts, and with your support, we aim to ensure that every student has access to a rich and fulfilling education, regardless of their financial circumstances.

Thanks to the generosity of old boy Kevin Torpey, we are now in the sixth year of awarding the Kevin Torpey Scholarship, which supports students pursuing careers in engineering and the broader mathematical sciences. This scholarship provides financial assistance for the first three years of university and has already made a meaningful impact on the lives of its recipients. Also, 2025 was the inaugural year of the Open Scholarship for all graduating students pursuing tertiary education in fields outside engineering. This new scholarship offers the same level of financial support as the Kevin Torpey Scholarship and reflects our commitment to broadening opportunities for all students. In addition, 2025 was also the inaugural year of the Don Orrock Mathematics Award given to the top performing mathematics student.

Through the continuing generosity of our Old Boy community and in accordance with our Trust Deed, your support provides life-changing access to a Marist education at Eastwood for boys whose families may otherwise not have the means. Should you have the capacity to add to the financial support for students in necessitous circumstances your tax deductible donation, large or small will make a difference.
